

Revision Date: 10-Jun-2016

**Revision Number:** 1

# 1. PRODUCT AND COMPANY IDENTIFICATION

# ALKYD URETHANE GLOSS WROUGHT IRON BLACK

Product Name Product Code Alternate Product Code Product Class Color Recommended use Restrictions on use

V200-81FR A20081 SOLVENT THINNED PAINT Black Industrial paint No information available

#### Manufactured For

Benjamin Moore & Co., Limited 8775 Keele Street Concord ON L4K 2N1 Phone: 1-800-361-5898 corotechcoatings.ca

## Manufacturer

Benjamin Moore & Co. 101 Paragon Drive Montvale, NJ 07645 Phone: 800-225-5554 corotechcoatings.com Emergency Telephone Number(s) CANUTEC: 613-996-6666

2. HAZARDS IDENTIFICATION

## **Classification**

This chemical is considered hazardous by the Hazardous Products Regulations (HPR: SOR/2015-17)

| Skin sensitization                                 | Category 1 |
|--|------------|
| Carcinogenicity                                    | Category 2 |
| Specific target organ toxicity (repeated exposure) | Category 1 |
| Aspiration toxicity                                | Category 1 |
| Flammable liquids                                  | Category 3 |
| Physical hazard not otherwise classified           | Category 1 |

## Label elements

Danger

## Hazard statements

# V200-81FR - ALKYD URETHANE GLOSS WROUGHT IRON BLACK

May cause an allergic skin reaction Suspected of causing cancer Causes damage to organs through prolonged or repeated exposure May be fatal if swallowed and enters airways Flammable liquid and vapor Risk of spontaneous combustion

Appearance liquid

Odor petroleum distillate

## **Precautionary Statements - Prevention**

Obtain special instructions before use

Do not handle until all safety precautions have been read and understood

Use personal protective equipment as required

Contaminated work clothing should not be allowed out of the workplace

Wear protective gloves

Do not breathe dust/fume/mist/vapors/spray

Wash face, hands and any exposed skin thoroughly after handling

Do not eat, drink or smoke when using this product

Keep away from heat/sparks/open flames/hot surfaces, no smoking

Keep container tightly closed

Ground/bond container and receiving equipment

Use explosion-proof electrical/ventilating/lighting/equipment

Use only non-sparking tools

Take precautionary measures against static discharge

Immediately after use, place rags, steel wool or waste used with this product in a sealed water-filled metal container or lay flat to dry.

## **Precautionary Statements - Response**

If exposed or concerned get medical attention **Skin** If skin irritation or rash occurs get medical attention Wash contaminated clothing before reuse If on skin (or hair) take off immediately all contaminated clothing. Rinse skin with water **Ingestion** If swallowed immediately call a POISON CENTER or physician Do NOT induce vomiting **Fire** In case of fire use CO2, dry chemical, or foam for extinction

## **Precautionary Statements - Storage**

Store locked up Store in a well-ventilated place. Keep cool

## **Precautionary Statements - Disposal**

Dispose of contents/container to an approved waste disposal plant Materials such as rags used with this product may begin to burn by themselves. After use, put rags in water or lay flat to dry, then discard.

## Other information

No information available

| 3. COMPOSITION INFOR | MATION ON COMPONENTS |
|----------------------|----------------------|
|----------------------|----------------------|

| Chemical Name                                | CAS-No     | Weight % (max) |
|--|------------|----------------|
| Nepheline syenite                            | 37244-96-5 | 15 - 40%       |
| Stoddard solvent                             | 8052-41-3  | 10 - 30%       |
| Talc   | 14807-96-6 | 3 - 7%         |
| Solvent naphtha, petroleum, light aromatic   | 64742-95-6 | 1 - 5%         |
| Silica, amorphous                            | 7631-86-9  | 1 - 5%         |
| 1,2,4-Trimethylbenzene                       | 95-63-6    | 1 - 5%         |
| Solvent naphtha, petroleum, medium aliphatic | 64742-88-7 | 1 - 5%         |
| Carbon black                                 | 1333-86-4  | 1 - 5%         |
| Methyl ethyl ketoxime                        | 96-29-7    | 0.1 - 0.25%    |
| Cobalt bis(2-ethylhexanoate)                 | 136-52-7   | 0.1 - 0.25%    |

# 4. FIRST AID MEASURES

| General Advice                  | If symptoms persist, call a physician. Show this safety data sheet to the doctor in attendance.  |
|---------------------------------|--|
| Eye Contact                     | Immediately flush with plenty of water. After initial flushing,<br>remove any contact lenses and continue flushing for at<br>least 15 minutes. Keep eye wide open while rinsing. If<br>symptoms persist, call a physician.       |
| Skin Contact                    | Wash off immediately with soap and plenty of water<br>removing all contaminated clothes and shoes. If skin<br>irritation persists, call a physician. Wash clothing before<br>reuse. Destroy contaminated articles such as shoes. |
| Inhalation                      | Move to fresh air. If symptoms persist, call a physician.<br>If not breathing, give artificial respiration. Call a physician<br>immediately.   |
| Ingestion                       | Clean mouth with water and afterwards drink plenty of water. Do not induce vomiting without medical advice.<br>Never give anything by mouth to an unconscious person.<br>Consult a physician.                                    |
| Protection Of First-Aiders      | Use personal protective equipment.   |
| Most Important Symptoms/Effects | May cause allergic skin reaction.  |
| Notes To Physician              | Treat symptomatically.   |

5. FIRE-FIGHTING MEASURES

| Suitable Extinguishing Media                             | Foam, dry powder or water. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.     |
|--|--|
| Protective Equipment And Precautions For<br>Firefighters | As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. |

| Specific Hazards Arising From The Chemical  | Combustible material. Closed containers may rupture if<br>exposed to fire or extreme heat. Keep product and empty<br>container away from heat and sources of ignition. Thermal<br>decomposition can lead to release of irritating gases and<br>vapors. |
|---|--|
| Sensitivity To Mechanical Impact  | No   |
| Sensitivity To Static Discharge   | Yes  |
| Flash Point Data<br>Flash Point (°F)<br>Flash Point (°C)<br>Flash Point Method<br>Flammability Limits In Air<br>Lower Explosion Limit | 104<br>40<br>PMCC<br>Not available   |
| Upper Explosion Limit   | Not available  |
| NFPA Health: 1 Flammability: 2  | Instability: 0 Special: Not Applicable   |
| NFPA Legend<br>0 - Not Hazardous<br>1 - Slightly<br>2 - Moderate  |  |

- 2 Modera
- 3 High
- 4 Severe

The ratings assigned are only suggested ratings, the contractor/employer has ultimate responsibilities for NFPA ratings where this system is used.

Additional information regarding the NFPA rating system is available from the National Fire Protection Agency (NFPA) at www.nfpa.org.

6. ACCIDENTAL RELEASE MEASURES

| Personal Precautions      | Use personal protective equipment. Remove all sources of ignition.   |
|---------------------------|--|
| Other Information         | Prevent further leakage or spillage if safe to do so. Do not<br>allow material to contaminate ground water system.<br>Prevent product from entering drains. Do not flush into<br>surface water or sanitary sewer system. Local authorities<br>should be advised if significant spillages cannot be<br>contained. |
| Environmental Precautions | See Section 12 for additional Ecological Information.  |
| Methods For Clean-Up      | Dam up. Soak up with inert absorbent material. Pick up<br>and transfer to properly labeled containers. Clean<br>contaminated surface thoroughly.   |

7. HANDLING AND STORAGE

Handling

Use only in area provided with appropriate exhaust ventilation. Do not breathe vapors or spray mist. Wear personal protective equipment. Take precautionary measures against static discharges. To avoid ignition of vapors by static electricity discharge, all metal parts of the

equipment must be grounded. Keep away from open flames, hot surfaces and sources of ignition.

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat. Keep away from open flames, hot surfaces and sources of ignition. Keep in properly labeled containers. Keep out of the reach of children.

**DANGER** - Rags, steel wool or waste soaked with this product may spontaneously catch fire if improperly discarded. Immediately after use, place rags, steel wool or waste in a sealed water-filled metal container.

#### Incompatible Materials

Incompatible with strong acids and bases and strong oxidizing agents.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

## **Exposure Limits**

No exposure limits have been established for this product.

| Chemical Name     | ACGIH                     | Alberta                          | British Columbia  | Ontario                   | Quebec   |

## **Engineering Measures**

Personal Protective Equipment Eye/Face Protection Skin Protection Respiratory Protection Ensure adequate ventilation, especially in confined areas.

Safety glasses with side-shields. Long sleeved clothing. Protective gloves. In operations where exposure limits are exceeded, use a NIOSH approved respirator that has been selected by a technically qualified person for the specific work conditions. When spraying the product or applying in confined areas, wear a NIOSH approved respirator specified for paint spray or organic vapors.

Avoid contact with skin, eyes and clothing. Remove and wash contaminated clothing before re-use. Wash thoroughly after handling. When using do not eat, drink or smoke.

## **10. STABILITY AND REACTIVITY**

Reactivity Not Applicable **Chemical Stability** Stable under normal conditions. Hazardous polymerisation does not occur. **Conditions To Avoid** Keep away from open flames, hot surfaces, static electricity and sources of ignition. **Incompatible Materials** Incompatible with strong acids and bases and strong oxidizing agents. Thermal decomposition can lead to release of irritating **Hazardous Decomposition Products** gases and vapors.

**Possibility Of Hazardous Reactions** 

None under normal conditions of use.

## 11. TOXICOLOGICAL INFORMATION

Product Information Information on likely routes of exposure

**Principal Routes of Exposure** 

Acute Toxicity **Product Information**  Eye contact, skin contact and inhalation.

Repeated or prolonged exposure to organic solvents may

|   | lead to permanent brain and nervous system damage.<br>Intentional misuse by deliberately concentrating and<br>inhaling vapors may be harmful or fatal.   |
|---|--|
| Information on toxicological effects                  |  |
| Symptoms  | No information available   |
| Delayed and immediate effects as well as chronic effe | ects from short and long-term exposure   |
| Eye contact<br>Skin contact                           | Contact with eyes may cause irritation.<br>May cause skin irritation and/or dermatitis. Prolonged skin<br>contact may defat the skin and produce dermatitis.   |
| Inhalation  | High vapor / aerosol concentrations are irritating to the eyes, nose, throat and lungs and may cause headaches, dizziness, drowsiness, unconsciousness, and other central nervous system effects.  |
| Ingestion   | Ingestion may cause irritation to mucous membranes.<br>Small amounts of this product aspirated into the<br>respiratory system during ingestion or vomiting may cause<br>mild to severe pulmonary injury, possibly progressing to<br>death. |
| Sensitization:  | May cause an allergic skin reaction.   |
| Neurological Effects                                  | No information available.  |
| Mutagenic Effects                                     | No information available.  |
| Reproductive Effects                                  | No information available.<br>No information available.   |
| Developmental Effects<br>Target Organ Effects         | No information available.  |
| STOT - single exposure                                | No information available.  |
| STOT - repeated exposure                              | No information available.  |
| Other adverse effects                                 | No information available.  |
| Aspiration Hazard                                     | May be harmful if swallowed and enters airways. Small<br>amounts of this product aspirated into the respiratory<br>system during ingestion or vomiting may cause mild to<br>severe pulmonary injury, possibly progressing to death.        |

#### Numerical measures of toxicity

The following values are calculated based on chapter 3.1 of the GHS document

| ATEmix (oral)                 | 52414 mg/kg |
|-------------------------------|-------------|
| ATEmix (dermal)               | 22527 mg/kg |
| ATEmix (inhalation-dust/mist) | 66.6 mg/L   |

#### **Component**

<u>Stoddard solvent</u> LD50 Oral: > 5,000 mg/kg (Rat) LD50 Dermal: > 3160 mg/kg (Rabbit) LC50 Inhalation (Vapor): > 6.1 mg/L (Rat) <u>Solvent naphtha, petroleum, light aromatic</u> LD50 Oral: 8400 mg/kg (Rat) <u>Silica, amorphous</u> LD50 Oral: > 5000 mg/kg (Rat) LD50 Dermal: 2,000 mg/kg (Rabbit) LC50 Inhalation (Dust): > 2 mg/L <u>1,2,4-Trimethylbenzene</u> LD50 Oral: 5000 mg/kg (Rat)

# V200-81FR - ALKYD URETHANE GLOSS WROUGHT IRON BLACK

LC50 Inhalation (Vapor): 18000 mg/m<sup>3</sup> (Rat, 4 hr.) <u>Solvent naphtha, petroleum, medium aliphatic</u> LD50 Oral: > 6240 mg/kg (Rat) LD50 Dermal: > 3120 mg/kg (Rabbit) LC50 Inhalation (Vapor): 1400 ppm (Rat, 4 hr.) <u>Carbon black</u> LD50 Oral: > 15400 mg/kg (Rat) LD50 Dermal: > 3000 mg/kg (Rat) LD50 Oral: 930 mg/kg (Rat) LD50 Oral: 930 mg/kg (Rat) LD50 Dermal: 200 µL/kg (Rabbit) LC50 Inhalation (Vapor): > 4.8 mg/L (Rat)

## Chronic Toxicity

## Carcinogenicity

The information below indicates whether each agency has listed any ingredient as a carcinogen:.

| Chemical Name                | IARC                           | NTP |
|------------------------------|--------------------------------|-----|
|                              | 2B - Possible Human Carcinogen |     |
| Carbon black                 | _                              |     |
|                              | 2B - Possible Human Carcinogen |     |
| Cobalt bis(2-ethylhexanoate) |                                |     |

• Cobalt and cobalt compounds are listed as possible human carcinogens by IARC (2B). However, there is inadequate evidence of the carcinogenicity of cobalt and cobalt compounds in humans.

12. ECOLOGICAL INFORMATION

# **Ecotoxicity Effects**

The environmental impact of this product has not been fully investigated.

## **Product Information**

## **Acute Toxicity to Fish**

No information available

## Acute Toxicity to Aquatic Invertebrates

No information available

## Acute Toxicity to Aquatic Plants

No information available

## Persistence / Degradability

No information available.

## **Bioaccumulation / Accumulation**

No information available.

## Mobility in Environmental Media

No information available.

<u>Ozone</u>

No information available

## **Component**

## Acute Toxicity to Fish

Methyl ethyl ketoxime LC50: 48 mg/L (Bluegill sunfish - 96 hr.)

#### Acute Toxicity to Aquatic Invertebrates

<u>Methyl ethyl ketoxime</u> EC50: 750 mg/L (Daphnia magna - 48 hr.)

#### **Acute Toxicity to Aquatic Plants**

No information available

13. DISPOSAL CONSIDERATIONS

#### Waste Disposal Method

Dispose of in accordance with federal, state, provincial, and local regulations. Local requirements may vary, consult your sanitation department or state-designated environmental protection agency for more disposal options.

**Empty Container Warning** 

Emptied containers may retain product residue. Follow label warnings even after container is emptied. Residual vapors may explode on ignition.

## 14. TRANSPORT INFORMATION

- Chronic Hazard

X - Consult your supervisor or S.O.P. for "Special" handling instructions.

Note: The PPE rating has intentionally been left blank. Choose appropriate PPE that will protect employees from the hazards the material will present under the actual normal conditions of use.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on MSDSs under 29 CFR 1910.1200, the preparer, has chosen to provide them. HMIS® ratings are to be used only in conjunction with a fully implemented HMIS® program by workers who have received appropriate HMIS® training. HMIS® is a registered trade and service mark of the NPCA. HMIS® materials may be purchased exclusively from J. J. Keller (800) 327-6868.

**WARNING!** If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by logging onto Health Canada @

http://www.hc-sc.gc.ca/ewh-semt/contaminants/lead-plomb/asked\_questions-questions\_posees-eng.php.
